

Department of Applied Psychology

PSYCHOLOGY PROGRAM OUTCOMES (PO)

M.A.

Programme Outcomes: Upon completion of the M.A. Applied Psychology Programme, the student will be able to

- PO1:** Acquire a solid foundation to pursue professional careers and take up higher educational courses such as M.Phil., Ph.D.
- PO2:** Acquaint with concurrent and emerging areas in psychology
- PO3:** Develop an understanding of applications of psychology in different settings indigenously as well as globally
- PO4:** Inculcate a Positive attitude towards paradigms of research
- PO5:** Develop a critical understanding about psychological assessment, appraisal and special concerns in society

Programme Specific Outcomes: Upon completion of the programme, the student would.

- PSO1:** Acquire academic excellence with an aptitude for higher studies, research, and to meet competitive examinations.
- PSO2:** Display knowledge, competencies and skills in key functional areas in psychology including clinical, counselling, social, management as well as day-to-day issues.
- PSO3:** Learn how to effectively manage one and others' social, emotional and behavioural problems
- PSO4:** Integrate critical thinking and analytical skills in terms of research and practice

PSO5: Facilitate rigors in designing research and processing

SEMESTER – I

Course Code: MAPSY-CC101

Course Name: Introduction to Applied Psychology

Course Outcomes: The course aims to

- CO1:** Introduce different domains of applied psychology (social, organizational, cognitive)
- CO2:** Understand the applications of psychology in different sectors.
- CO3:** Analyze the concepts of eastern and western psychology.
- CO4:** Appraise the methods of study in different domains to increase the decision making skills.

SEMESTER – I

Course Code: MAPSY-CC102

Course Name: Emerging Areas in Psychology

Course Objectives: The course aims to

- CO1:** Examining the emerging areas in psychology
- CO2:** Integrate a global and community based orientation
- CO3:** Analyze the issues of psychology and technology interface
- CO4:** Demonstrate how to effectively handle the emerging areas locally and globally

SEMESTER – I

Course Code: MAPSY-CC103

Course Name: Research Methods

Course Objectives: The course aims to

- CO1:** Introduce the basics of scientific research Outline the steps in conducting, writing and reporting research.

CO2: To acquaint the student with paradigms of research.

CO3: Integrate the knowledge about sampling and research design.

CO4: Assess the different quantitative and qualitative research methods.

SEMESTER – I

Course Code: MAPSY-CC104

Course Name: Statistics

Course Objectives: The course aims to

CO1: Examining the statistical rigors in designing research and processing data

CO2: Understanding parametric and non-parametric tests

CO3: Calculate different parametric and non-parametric tests

CO4: Relate the use of technology and software like SPSS in research

SEMESTER – I

Course Code: MAECC-101

Course Name: (Ability Enhancement Compulsory Course)

SEMESTER – II

Course Code: MAPSY-CC205

Course Name: Applied Cognitive Psychology

Course Objectives: The course aims to

CO1: Explore the practical implications of cognitive processes in human performance

CO2: Facilitate the learning of traditional and emergent fields of applied cognitive psychology.

CO3: Understand-brain-behaviour relationship in day to day life.

CO4: Appraise the processes in language development, problem-solving and decision-making, memory

SEMESTER – II

Course Code: MAPSY-CC206

Course Name: Applied Psychometrics

Course Objectives: The course aims to

CO1: To highlight the antecedents and current trends in psychological assessment

CO2: To express the steps of test and scale construction

CO3: To illustrate the applications of psychological testing in different areas

CO4: To outline the professional, moral and ethical issues in testing

SEMESTER – II

Course Code: MAPSY-CC207

Course Name: Organizational Behaviour

Course Objectives: The course aims to

CO1: Introduce the nature, scope, and approaches in organizational behaviour.

CO2: Develop an understanding of individual behaviour in organizations.

CO3: Understand the group behaviour and leadership in organizations .

CO4: Gather knowledge about organizational change and development To estimate the challenges of organizations.

SEMESTER – II

Course Code: MAPSY-CC208

Course Name: Human Development and Psychopathology

Course Objectives: The course aims to

CO1: Explore the development processes and theoretical perspectives

CO2: Evaluate the thoughts of eminent educational thinkers

CO3: Present the various classifications of psychopathology

CO4: Throw light upon the pathologies

SEMESTER – II

Course Code: MAPSY-CC209

Course Name: Practicum

Course Outcomes: The course aims to

CO1: To conduct experiments and testing

8 Practicum (Experiments and Testing) based on papers of Semester I and II.

SEMESTER – II

Course Code: MAPSY-SEC201

Course Name: Skill Enhancement Course (SEC)

SEMESTER – III

Course Code: MAPSY-CC310

Course Name: Clinical Psychology

Course Objectives: The course aims to

CO1: Review the classic and contemporary thinkers in clinical psychology

CO2: To interpret psychotherapy: concept, goals, scope, process of assessment

CO3: To understand the application and implementation of different psychotherapy

CO4: To illustrate the current trends and future directions in clinical psychology

SEMESTER – III

Course Code: MAPSY-CC311

Course Name: Human Resource Development and Management

Course Objectives: The course aims to

CO1: To acquaint the student with application of human resource functions in the organizations.

CO2: Understand the role of Organizational psychologists in hiring, supporting employees, performance appraisals in order to achieve the strategic goals of the organization, reduced turnover, increased productivity, and improved employee engagement.

CO3: To predict the training needs and methods in organizations

CO4: To assess concept and processes of managing global human resources

SEMESTER – III

Course Code: MAPSY-CC312

Course Name: Applied Social Psychology

Course Objectives: The course aims to

CO1: To highlight the concepts of applied social psychology

CO2: To summarize the group dynamics

CO3: To categorize the processes of social influence on behaviour

CO4: To reflect upon education from socio-psychological perspective

SEMESTER – III

Course Code: MAPSY-CC313

Course Name: Neuropsychology

Course Objectives: The course aims to

CO1: To know different brain regions responsible for psychological attributes.

CO2: To know different brain regions and related disorders

CO3: To understand the neuropsychological relation to psychological disorders of attention, learning and motivation

CO4: To relate the methods in neuropsychology, neuroplasticity and its significance

SEMESTER – III

Course Code: MAPSY-CC314

Course Name: Practicum

8 Practicum (Testing and Experiments) based on papers of Semester III and IV.

Course Outcome: The course aims to test on the topics covered in this semester

Testing

SEMESTER – III

Course Code: MAECC302

Course Name: MAECC302 (Ability Enhancement Compulsory Course)

SEMESTER – IV

Course Code: MAPSY-DSE401

Course Name: Project / Dissertation

Course Outcome: The course aims to devise and conduct original and ethical research.

SEMESTER – IV

Course Code: MAPSY-DSE402

Course Name: Counseling Psychology

Course Objective: The course aims to

CO1: To acquaint student with theoretical basis of counseling skills, counseling models,

counselor's personal and professional issues and growth and ethical and legal issues.

CO2: To Understand assessment, appraisal and special concerns in Counseling.

CO3: To integrate the issues of suicide, substance abuse, and child abuse in counseling

CO4: To reflect upon community mental health

SEMESTER – IV

Course Code: MAPSY-GE401

Course Name: Self and Personal Growth

Course Objectives: The course aims to

CO1: To acquaint the student with concepts of self and personal growth

CO2: An active rather than a passive process requiring learners to be self-motivated in understanding their personal growth and designing Intervention.

CO3: To highlight upon the assessment of personality
